

Early Years Program

- Inspiring Curiosity. Igniting Imagination - the ODM way!

Our Early Years Program

At ODM Educational Group, our commitment is to be India's premier preschool, and we take immense pride in revolutionizing early childhood education. Our primary focus revolves around creating a joyful and interactive learning environment that nurtures your child's growth. Our integrated learning model encompasses various educational approaches.

Our Curated curriculum is an integration of:

Thematic Learning (based on EYFS - UK)

Based on the idea that kids learn best through holistic, real-life experiences.

STEAM (Science, Technology, Engineering, Arts & Mathematics)

To cultivate creativity and critical thinking through hands-on experiences.

Montessori

To encourage self-directed learning, foster independence, and instill love for exploration.

Character CPX Program

Building a strong sense of character in students

Sports

To ingrain the value of health & team work

Our Programs

Nursery
(3+ years)*

Lower KG
(4+ years)*

Upper KG
(5+ years)*

*as of 31st March, of the
Year when session starts

Why ODM's Early Years Program?

Integrated Curriculum

Brings best of Real-Life Based, Independent, STEAM based, Physical & Character based learning

Thoughtful Learning Environment

with state-of-the-art facilities & equipments

The Experience

Of our teachers & the organisation has only made us better with time

The Safety & Care

Every day, we ensure the safety of each child, and our teachers care of each little one

Teaching Technique

We let children learn by doing. Our Research partner is Theo Kids - Based out of Mumbai, India

SCHOOLS

Durgapur: Nur, LKG & UKG

Gurugram: Nur, LKG & UKG

Our Curriculum

7 AREAS OF LEARNING

Nurturing Your Child's Unique Needs

Communication & language

Physical Development

Personal, Social & Emotional Development

Literacy

Mathematics

Understanding the World

Expressive Arts & Design

As ODM launches its very own curated Early Years program, it draws its inspiration from EYFS, UK & Howard Gardner's Theory of Multiple Intelligences, which clearly identifies several intelligences and preferences that human beings depend upon, to take in information and solve problems.

Depending on one's intelligence, a child's learning modalities and preferences may differ. The Early Years Matter Preschool Curriculum therefore, recognizes and appreciates these preferences in the learning process.

We nurture our children to make them:

Curious . Collaborative . Confident . Empathetic . Independent

Our Three Learning Methodologies

- The curriculum **spans 180 days**, accounting for various festivals and holidays observed in schools.
- Additionally, **we allocate a buffer of 20 to 30 days** to ensure teachers can thoroughly cover the content, preserving the students' conceptual understanding as they transition to formal schooling (1st Std).
- Each monthly theme encompasses **Language, Numeracy, Social-Emotional, Creative, and Cognitive skills**.
- Furthermore, our curriculum offers **recommendations for storybooks** to aid teachers in enhancing students' moral and behavioral attributes.
- **For every topic, creative endeavor, or social activity**, we outline clear aims, objectives, and necessary materials.
- We provide a **structured teaching procedure to guide teachers**, including the introduction of new vocabulary and sight words to bolster reading skills.

In the first 2000 days of a child's life, the neurons in the brain develop at a rate of 700-1000 per second and 85% of the brain develops during this time.

Additional Advantages of our Early Years Plus Program

Jolly Phonics

Jolly Phonics

Jolly Phonics is a fun and child centred approach to teaching literacy through synthetic phonics. Learning Jolly phonics is the most important and essential first step to learning English, by applying Jolly Phonics to English language learning one can ensure proper pronunciation from the beginning. Jolly phonics work by including over 40 English sounds.

BrainGym Jr Program

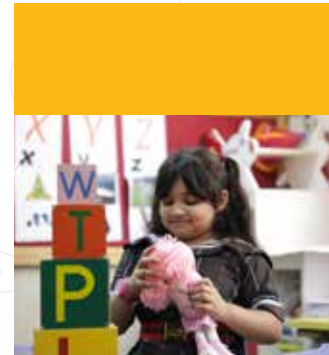

Developed by Dr. Paul E. Dennison, a renowned expert in children's motor development, Brain gym movements is used to connect both brain hemispheres (right and left), with the final aim of improving the brain functions, helping one to think, learn and concentrate at any time.

Drum Circles

Drum Circles offer a multitude of advantages for children. Studies have substantiated that drumming: Harmonizes activity in both the left and right brain hemispheres, Facilitates the development of motor skills, Enhances hand-eye coordination. Cultivates creativity, Sharpens listening skills.
